# JHUDIEL ADRIAN B. ARTEZUELA

*Full-Stack Developer, Automation & QA Engineer*

Cebu City, Philippines | (+63) 956-538-4687 | jhudzartezuela@gmail.com | github.com/adrianjhudiel

## PROFESSIONAL SUMMARY

Information Technology graduate and Performance-Based Associate with hands-on experience delivering full-stack web, mobile, and automated business applications end to end, alongside hands-on QA/testing experience focused on accuracy, data verification, and attention to detail. Skilled in NestJS, TypeScript, Spring Boot, and Python, with optimized PostgreSQL and MySQL databases and backend automation for GoHighLevel lead pipelines. Known for rapidly self-teaching new disciplines under real deadlines and shipping production-grade reliability fixes with minimal oversight.

## CORE SKILLS

**Backend:** NestJS, TypeScript, Node.js/Express, Java, Spring Boot, Python

**Frontend & Mobile:** React, HTML5, CSS3, Android Studio, Kotlin

**Databases & Automation:** PostgreSQL (Supabase), MySQL, GoHighLevel

**QA & Testing:** Vitest, Manual and Functional Testing, Regression Testing, Test Case Design, Data Accuracy and Verification, Bug Tracking and Triage

**Tools and Collaboration:** Git/GitHub, GitHub Actions, Claude Code, ClickUp

## PROFESSIONAL EXPERIENCE

**MetaWatt LLC** — *Performance-Based Associate (formerly Technical Intern)* *Jan 2026 - Present*

- Promoted from Technical Intern to Performance-Based Associate for consistently driving impactful technical initiatives and scaling business-automation pipelines.
- Self-taught software QA/testing methodology in under a day with no dedicated QA lead and no prior testing background, delivering results technical leadership approved on first review.
- Applied that QA process to independently test an AI-assisted client chat/portal feature end to end, covering manual and regression checks, defect logging, data accuracy verification, and fix verification before release.
- Shipped 22 merged PRs (Jun-Oct 2026) on the company's AI orchestration platform (surplus_ai_orchestrator, TypeScript/Express), building lead-pipeline workflows end to end: case-tracking and hearing-trigger automations, a 24-hour no-reply mailer, and a hot-lead call booker, plus structured logging across the workflow handlers.
- Hardened production reliability on the same platform with webhook idempotency, retry-safe job creation ahead of webhook confirmation, recipient-address and deceased-owner safety checks before outreach, PII-safe logging, tighter database permissions, and CI builds that fail on error.
- Assisted in building automated lead-management and operational-intake workflows using GoHighLevel, supporting lead-to-client handoff and accurate record-keeping.

## CERTIFICATIONS

**TESDA-Recognized: AI Prompting for Automation Level III** *Advanced Institute of Technology (StackTrek), May 2026*

**AWS (Amazon Web Services) - 60 hrs** *Accenture Technology Academy, Sep 2025-Jan 2026*

## TECHNICAL PROJECTS

**Cyber Kids** — *Capstone Project, Game Engine / Lua*

- Engineered immersive in-game models, custom animations, and game logic in Lua using a built-in animation editor; co-presented research at ICE 2025, Silliman University, to promote Cyber literacy awareness.

**FurryFriends** — *ReactJS, Spring Boot, Java*

- Built front-end and back-end functionality for an appointment-scheduling web application for veterinary hospitals.

**ParkTrack** — *Python, Django*

- Designed clean user interfaces and end-to-end booking flows for an intuitive parking-reservation system.

**CollaborAid | MyTravelPal | Deluge Adventure TD** — *Android/Kotlin, Java*

- Built a collaborative community-help platform with Google Cloud services and level-progression mechanics (CollaborAid); engineered real-time itinerary features (MyTravelPal); developed a 2D pixel tower-defense game with custom grid mechanics (Deluge Adventure TD).

## EDUCATION

**Cebu Institute of Technology - University** — Bachelor of Science in Information Technology *Cebu City, Cebu*

*Relevant coursework: Software Quality Assurance and Testing, Database Management Systems, Web and Mobile Application Development*

**Cebu Institute of Technology - University** — Senior High School Graduate, With Honors *Cebu City, Cebu*

**Saint Cecilia College Cebu, Inc.** — High School Graduate *Minglanilla, Cebu*
