JHUDIEL ADRIAN B. ARTEZUELA

Full-Stack Developer, Systems Automation & QA

Cebu City, Philippines | (+63) 956-538-4687 | jhudzartezuela@gmail.com | github.com/adrianjhudiel

PROFESSIONAL SUMMARY

Full-stack developer and Performance-Based Associate building the backend automation behind a live AI-driven lead pipeline: webhook integrations, scheduled follow-up workflows, and CRM pipeline automation alongside GoHighLevel. Shipped 22 merged pull requests to the company's TypeScript/Express orchestration platform, including four end-to-end workflows and reliability fixes for retries, data safety, and CI. Hands-on QA background in manual and regression testing, and daily use of Claude Code for development, testing, and code review. Known for rapidly self-teaching new disciplines under real deadlines.

CORE SKILLS

Backend: TypeScript, Node.js/Express, NestJS, Java, Spring Boot, Python

Frontend & Mobile: React, HTML5, CSS3, Android Studio, Kotlin

Databases & Automation: PostgreSQL (Supabase), MySQL, REST APIs and Webhooks, Zod Validation, GoHighLevel

QA & Testing: Vitest, Manual and Functional Testing, Regression Testing, Test Case Design, Bug Tracking and Triage

Tools and Collaboration: Git/GitHub, GitHub Actions (CI), Claude Code, ClickUp

PROFESSIONAL EXPERIENCE

MetaWatt LLC — *Performance-Based Associate (formerly Technical Intern)* *Jan 2026 - Present*

- Promoted from Technical Intern to Performance-Based Associate for consistently driving impactful technical initiatives and scaling business-automation pipelines.
- Self-taught software QA methodology in under a day with no dedicated QA lead, then independently tested an AI-assisted client chat/portal feature end to end (manual and regression checks, defect logging, fix verification); technical leadership approved the results on first review.
- Shipped 22 merged pull requests to the company's AI orchestration platform (TypeScript, Express, Supabase), building four end-to-end automation workflows: Motion Filed case tracking, Competing Claims / Hearing Set triggers, a 24-hour no-reply Mailer trigger, and a Hot Lead sales-call booker.
- Hardened the lead pipeline's reliability and data safety: retry-safe (idempotent) webhooks, follow-up jobs created before a webhook confirms, recipient checks before outreach, PII-safe validation logging, and a CI build check.
- Designed and refined complex database modules using advanced SQL architecture standards, improving structural integrity and query performance.
- Assisted in building GoHighLevel lead-management and lead-to-client handoff workflows, and built the backend webhooks and pipeline-stage automation those workflows call.

CERTIFICATIONS

TESDA-Recognized: AI Prompting for Automation Level III *Advanced Institute of Technology (StackTrek), May 2026*

AWS (Amazon Web Services) - 60 hrs *Accenture Technology Academy, Sep 2025-Jan 2026*

TECHNICAL PROJECTS

Cyber Kids — *Capstone Project, Game Engine / Lua*

- Engineered immersive in-game models, custom animations, and game logic in Lua using a built-in animation editor; co-presented research at ICE 2025, Silliman University, to promote Cyber literacy awareness.

FurryFriends — *ReactJS, Spring Boot, Java*

- Built front-end and back-end functionality for an appointment-scheduling web application for veterinary hospitals.

ParkTrack — *Python, Django*

- Designed clean user interfaces and end-to-end booking flows for an intuitive parking-reservation system.

CollaborAid | MyTravelPal | Deluge Adventure TD — *Android/Kotlin, Java*

- Built a collaborative community-help platform with Google Cloud services and level-progression mechanics (CollaborAid); engineered real-time itinerary features (MyTravelPal); developed a 2D pixel tower-defense game with custom grid mechanics (Deluge Adventure TD).

EDUCATION

Cebu Institute of Technology - University — Bachelor of Science in Information Technology *Cebu City, Cebu*

Relevant coursework: Software Quality Assurance and Testing, Database Management Systems, Web and Mobile Application Development

Cebu Institute of Technology - University — Senior High School Graduate, With Honors *Cebu City, Cebu*

Saint Cecilia College Cebu, Inc. — High School Graduate *Minglanilla, Cebu*
